BASEBALL SEASON
WILL OPEN TODAY

The First Game of the Season This
Afternoon at the Normal.

The long-awaited baseball season has at last arrived and this afternoon will afford Tempe an opportunity of witnessing the opening of the baseball league of the valley. While so far this year basketball and tennis have been pushed to the front it has been a difficult matter to hold back the enthusiasts of the one national game, but now the season is on and it gives every promise of being a warm one. Naturally the rest of the valley schools are after the normal's scalp, as they have now won the pennant four years out of five. At the present time it looks as if every school were in the running with a possible shade in favor of the Indian school.

It is just a little unfortunate for the normal that the Indians who play them this afternoon are their first opponents. The normal team is almost entirely new and three weeks' practice is a short time for a ball team to be rebuilt, but the normal boys are nevertheless planning on getting the first game if possible despite their agile adversaries. As the league series is short, one game means a lot to championship hopes. The Indian-normal game, although the first of the season is liable to be the deciding game and undoubtedly will be one of the fastest games played in Tempe. Professor F. C. Ayers, who is coaching the normal team, announces the following line-up: Baby, catcher; J. Spikes, pitcher; A. Spikes, first base; Brown, second base; Mullen (captain), shortstop; Corbell, third base; Dean, Blake, McComb and Windes, fielders; Critchley, Duggan, Ames and Jungerman, subs. Of these men, Baby, Mullen and Brown are the only representatives of last year's team.

The game will begin promptly at 2:30 o'clock, city time, with the Indians at bat and Rudolph as official umpire.

SUNNY
MONDAY

There is not an ounce of rosin in Sunny Monday Laundry Soap. Rosin is used in all other laundry soaps—because it is cheaper than the fats and oils used in Sunny Monday. Sunny Monday costs more to manufacture than any other laundry soap of which we know. It is kind to clothes—will not shrink flannels or woollens, or turn clothes yellow.

Sunny Monday is just as pure as its whiteness indicates; it is the safest and most economical laundry soap you can use.

AUSPICIOUS OPENING
OF LECTURE COURSE

The First Number an Entertaining and
Instructive One.

The Tempe lecture course has started out in a most auspicious manner, and if the numbers to come are all as satisfactory as the first one, every one connected with the course, will feel that the effort which brought about the series was fully justified.

On Thursday evening to a good sized audience, Dr. Baumgardt delivered his famous lecture, "The Field and Fjords of Norway." The topic was a most interesting one, made doubly so by the hundred or more remarkably beautiful lantern views displayed upon a screen. There was no one present Thursday evening who did not profit by his or her presence there. The lecture was not only interesting and entertaining but it was also highly instructive.

A thorough familiarity with his subject, due to repeated visits to Norway, a knowledge of the language and customs of the Norwegians, enabled the speaker to present the information in a most entertaining manner. Though he spoke for over an hour and a half, there were few that realized that much time elapsed.

Last evening Dr. Baumgardt delivered his second lecture, entitled "An Evening With the Stars."

A STOLEN STEER.

A couple of nights ago, some one with more than the ordinary amount of nerve, entered a pasture on the Chandler ranch and butchered a steer belonging to Taylor and Jensen. Deputy Sheriff Adams and Inspector Robbins have been spending their time for the last two days on the case and yesterday had some information that indicated they would in a short time have hold of at least one party implicated in the affair.

THE HIGH SCHOOL PLAY.

A good interest is being taken in the play to be presented at the high school this evening and the indications are that there will be a large attendance. In addition to the play, "An Obstinate Family," there will be a program of pantomime, songs, solos, duets and quartets. An admission fee of 25 cents will be charged.

WILL KEEP OPEN EVENINGS.

A number of the Tempe merchants have arranged to hold an exchange of business open evenings from this date until Christmas in order to accommodate their patrons who may not find it convenient to do their holiday shopping in the day time.

LADIES EXCHANGE.

The Ladies Aid society of the congregational church will hold an exchange at Birchett Bros' store this afternoon.

FIGURE IT OUT.

If you want a dose of pills or a bottle of castor oil, you will naturally go to a drug store. If hungry, you would look for a restaurant; if you need a stove, you would call at a hardware store; a roast of meat could be procured at a butcher shop, while you would naturally go to a grocery store for a sack of flour or a pound of coffee. Each place of business has its own line of goods and undoubtedly when thinking over in your mind what would make a suitable present for any member of your family or friends, your thoughts would drift to Hyder Bros' store; where you have always found the selection of gifts unexcelled and where unparalleled satisfaction is always given. This year, the assortment at this store is even greater than any succeeding year and inspection of the enormous stock will convince you that we are still dealing also in plain fact, but by all means shop early, for you will get better selection and better service by so doing and both are imperative in making a selection of Christmas gifts.

TO WASH RARE OLD LACE.

Rare old lace should be stepped in milk for twenty or twenty-five minutes to give it the correct yellowish tint. In cleaning old lace do not wring it, for the twisting of the fine threads breaks them. Make a suds of shaved soap and boiling water, squeeze the lace between the hands in this water, rinse it in two or three waters and then steep it in the milk.

LINEN COLLARS.

For the very popular sailor collar to be worn with the coat suit, the smartest dressed women now use the ivory-colored linen instead of the white. It is the best ground for the embroidery and, by the way, the new collar is not scalloped but plain and worked with a heavy buttonhole stitch. Some are bound with black satin.

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY.
It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.
